Re: Ex Parte Notice in WT Docket No. 07-293

Dear Ms. Dortch:

Pursuant to § 1.1206(b) of the Commission's Rules, this letter serves to notify the Commission that San Diego Gas & Electric Company (SDG&E), together with the undersigned counsel, held several *ex parte* meetings with the Commission this week concerning WT Docket No. 07-293. Present at the meetings for SDG&E were Jeff Nichols, Director, Information Security & Information Management; Aineakho Ojior, Lead, Utility Network Engineering; and Larry Davis, Assistant General Counsel. First, on Wednesday, August 22, 2012, the SDG&E parties held two meetings: first, with Louis Peraertz of Commissioner Clyburn's office; and second, with Commissioner Pai and his wireless legal advisor, Courtney Reinhard. On Thursday, August 23, 2012, the SDG&E parties met separately with (i) Renee Wentzel, Chairman Genachowski's wireless legal advisor, and (ii) the following individuals from the Commission's Office of Engineering & Technology and Wireless Bureau:

Richard Arsenault
Linda Chang
Patrick Forster
John Leibovitz
Paul Moon
Roger Noel
Tom Peters
Ronald Repasi

And today, Friday, August 24, 2012, the SDG&E parties (with the exception of Larry Davis) met with David Goldman, senior legal advisor, and Holly Saurer, acting legal advisor for media issues, of Commissioner Rosenworcel's office.

All of the meetings focused on the joint *ex parte* submission of AT&T and Sirius XM on June 15, 2012 (the "*AT&T Sirius XM Joint Submission*") and SDG&E's responsive *ex parte* submission on July 26, 2012 in WT Docket No. 07-293. SDG&E described the tremendous progress it has made in designing and implementing its smart grid system since it acquired two WCS licenses

from NextWave in 2010 and how this system furthers the Commission's goals in the *National Broadband Plan*. SDG&E confirmed that AT&T has reached out to SDG&E on a business-to-business basis and that the parties are discussing potential solutions to some of the issues raised in their respective *ex parte* submissions. SDG&E emphasized, however, that SDG&E remains gravely concerned about the *AT&T Sirius XM Joint Submission* and that there can be no assurance that SDG&E and AT&T will be able to reach a business-to-business resolution of the issues. The remainder of the meetings focused on SDG&E's substantive concerns about the five proposed rule changes from the *AT&T Sirius XM Joint Submission* to which SDG&E has objected and why the only appropriate way to address these new proposals is in a further notice of proposed rulemaking in WT Docket No. 07-293. In sum, each meeting reiterated and elaborated slightly upon the detailed *ex parte* submission of SDG&E from July 26, 2012.

Please direct any questions you may have to the undersigned.

Very truly yours,

/s/ Brian D. Weimer
